Professional Summary

Senior Mobile Application Developer with over 3 years of commercial experience delivering high-quality, high-performance applications using Flutter (cross-platform), Kotlin (native Android), and Swift (native iOS). Successfully published **7+ production apps** on Google Play and the App Store.

Specialized in real-time communication (WebRTC), scalable architectures, payment integrations, and AI-powered features. Proven track record in performance optimization (app size reduction up to 20%, faster cold starts) and full-cycle deployment.

Open to immediate remote or on-site opportunities worldwide.

Technical Skills

Languages: Dart, Swift, Kotlin, Java, C/C++, JavaScript, Python, PHP

Mobile Development: Flutter, SwiftUI, UIKit

State Management: Riverpod, Provider, GetX

Backend & Real-time: REST APIs (Dio, HTTP), WebSocket, WebRTC, GraphQL, Socket.IO

Cloud & Authentication: Firebase (Auth, Firestore, Realtime DB, FCM), Google Sign-In, Apple Sign-In

Payments: Stripe, Google Pay, Apple Pay, PayPal, In-App Purchases

Advanced Features: 1:1 & Group Audio/Video Calls, AI Integration (OpenAI, Gemini), NFC, Deep Linking, GoRouter, Isolates

ML & Vision: Google ML Kit (OCR, Face Detection, Barcode/QR, Translation)

UI/UX & Design: Material 3, Custom Animations, Responsive Layouts, Hero Transitions, Figma → Pixel-perfect Implementation

Architecture & Best Practices: Clean Architecture, MVVM, Repository Pattern, OOP, Design Patterns

Deployment & Tools: App Store Connect, Google Play Console, TestFlight, Fastlane

Professional Experience

Senior Flutter & Swift Developer
Softvench Delta

January 2024 – Present
Dhaka, Bangladesh

- Designed and developed enterprise-grade cross-platform applications using Clean Architecture in Flutter and native Swift.
- Implemented low-latency 1:1 and group video calling using WebRTC with proper background mode support.
- Integrated secure payment gateways (Stripe, Apple Pay, Google Pay) achieving 100% transaction success rate in production.
- Optimized application performance: reduced app size by 20% and cold start time by 30% through code refactoring, asset compression, and profiling.
- Managed full app lifecycle: releases, TestFlight / beta testing, App Store / Google Play submissions and updates.

Flutter Developer (Intern)

United Group (Orange Solution Ltd)

August 2023 – January 2024

Dhaka, Bangladesh

- Collaborated with designers, QA, and backend teams to deliver scalable Flutter applications.
- Developed responsive, data-driven user interfaces using Provider state management.
- Improved app performance by 30% and reduced bundle size by 20% via efficient coding practices and resource optimization.

Selected Production Applications

(7+ apps published on Google Play and App Store – full portfolio available on request)

Ayni Wellness (Android)

AI-powered spiritual wellness platform providing personalized daily mindfulness routines based on real-time emotional/spiritual assessments. Features AI-generated suggestions from 40+ modalities (meditation, sound healing, journaling, yoga, etc.), Firebase backend, and intuitive UX.

[Google Play Link](#)

Employee Management App (iOS & Android)

Enterprise solution for attendance, workflows, and employee management.

iOS: [App Store](#) | Android: [Google Play](#)

Service Job Assignment App (iOS)

Real-time job dispatch and progress tracking for field workers.

[App Store Link](#)

Vecimarket (Android)

Local marketplace connecting buyers/sellers in residential buildings.

[Google Play Link](#)

Panic Attack Game Timer (Android)

Interactive real-time game timer with smooth animations.

Android: [Google Play](#)

Lawn Lemur Service App (Android)

Platform for booking and managing lawn care services.
